GOOD NEWS FOR HOMEMAKERS

WHAT TO DO WHEN THE HEAT'S OFF

The following information was presented last week at a Homemaker's Leader Training Session. I wish to share this with you because it is smart to be prepared in case an emergency should occur.

The Public Health Service (PHS) lists the following steps to take in case of sudden heat loss where you live:

1. Immediately close off a small room (or section) of your house or apartment and move your family into it. Pick a room on the warm side of the house or apartment, usually the south side. Preferably use a room with only one outside wall,rather than a corner room. If the windows are not insulated, cover them on the inside with plastic. Several layers of clear plastic garment bags, the kind you get from the dry cleaners, will do the job. If you do not have those, use a blanket. Experiment with the blanket during the day. Sunlight coming through the window may help warm the room.

If the floor is bare, cover it with rugs or blankets. The more the better.

If the room has a door, keep it closed. You may have to put a rug or towel against the crack at the bottom of the door to prevent a draft. If you do not have a door to the room, cover the entrance with blankets.

4. If the room has a fireplace, use it. But make sure there is enough air coming into the room from elsewhere in the house to make a draft. Otherwise the fireplace will smoke. If you run out of firewood, burn tightly rolled newspapers. Do not close the dampers, however, before the fire is completely out.

5. If it is bitterly cold out, you may have to drain water pipes and toilets before the water in them freezes. Learn how to do that from a plumber before the emergency arises. Water in the hot water tank will stay warm for a day or so. But if the house is going to be cold for any length of time, drain the hot water heater also. Save some water for personal use.

6. Wear warm clothes. Layers of clothing work best to contain body heat. Wear heavy socks. Make sure they stay dry. Wear a wool cap.

7. If there is food in the house that should not be allowed to freeze, put it in the refrigerator.

8. Let a neighbor or someone in the community know that you are without heat. This is especially important if you live in an isolated rural area.

9. If your house has no electricity as a source of alternate heat, or if you cannot get sufficient warmth from a fireplace, go immediately to a shelter area. If the roads are bad, notify rescue personnel.

Ladies, there will be two training sessions on Landscaping on January 24, 1978 (1:30 p.m. and 7:30 p.m.) at Superior Trees Nursery, located one mile north on Route 26. Everyone is invited to come and learn the principles of good landscaping.

CITRON PRESERVES
[VINE CITRON]

Peel and seed citron, cut in 3 to 4 inch pieces. Cover with water. Let until citron can be pierced with a straw. Remove citron and measure water. For each 2 cups add 1½ cups sugar. Boil this syrup until scum quits rising. Add citron to syrup and boil until clear (over 1 hour). Take citron out and boil juice 15 minutes. Slice into the juice, 3 lemons to each 4 quarts and boil 15 minutes. Use lemon juice and peel, removing all seeds. Fill sterilized Jars with fruit to within ½ inch of top and add hot juice to this level. Put on cap, screw band firmly tight. Process in boiling water bath 10 minutes or seal with paraffin.

Note: To use citron in recipes calling for candied fruit, air-dry citron preserves by removing pieces from the syrup and allowing to dry at room temperature on a cooling rack for several days.

Virginia T. Ferguson, Secretary

Crewman of the Year

Mrs. Nellie Almond, right above, was honored Saturday night, January 7, 1978, when she was presented a plaque naming her "Crewman of the Year" of the Appomattox County Rescue Squad for 1977. The plaque was presented to "Nellie" by James C. Rogers, Captain of the local squad. She was chosen for this honor by vote of fellow members.

As a member of the Appomattox County Rescue Squad, "Nellie" serves as Second Lieutenant, Junior and is one of the four crew leaders in the squad. Whenever asked to serve in any capacity or to answer a call at any time, she is ready and willing to do everything she can to help her fellowman, even though "day-calls" mean that she has to punch the time clock "out and in" at work and does not get any pay for the time lost from work.

Nellie Almond is, and has been for a number of years, an outstanding member of the Appomattox County Rescue Squad and we congratulate her on being chosen Crewman of the Year.

Shown above is Shelby Dunnam being presented a red rose by Merry Wright.

The FHA Girl of the Month for December was Shelby Dunnam. She is the daughter of Mr. and Mrs. Robert Dunnam, III of Appomattox. Shelby is a junior at Appomattox County High School and has been a member of FHA for four years. She has worked on many committees such as the fair booth, homecoming float and the Welfare Committee. She is now Parlimentarian for the 77-78 school year. Shelby had various entries in the fair this year such as jellies and pickles. She also modeled a dress in the fashion show, but Shelby has also been busy attending executive meetings, leadership conferences and all F. H. A. meetings. We can see Shelby has been a very busy member and officer of the F. H. A. Congratulations Shelby.
